

01 - MEMBRANE EPDM Ø105MM
 02 - PVC REINFORCED BASE
 03 - CONNECTION 3/4" NPT

Coarse bubble disc diffuser 105mm

Type:	Membrane (EPDM)
Body of the diffuser:	PVC reinforced for maximum resistance against chemical agents, temperature and UV.
Constructive Characteristics:	The coarse bubble disc diffuser is mounted on the PVC base and is secured by the fastening recesses. It is opened automatically with the pressure of air supply and with interruption of air supply it is closed, preventing the entry of the sewage in the plumbing.
Technical Characteristics	
Air flow:	Minimum 0,020 m ³ /min Maximum 0,420 m ³ /min
