

**PRODOZ**  
MECHANICAL DIAPHRAGM  
TYPE METERING PUMPS

**MPP**  
SERIES

Compact design in simple structure  
Heavy duty design with durable features  
Flow can be adjusted from 0-100 % while running or stopped.

Capacities with single head up to 16.000 lt/hr  
Pressures up to 500 bar  
Accuracy  $\pm$  %1  
Temperatures between -100 0C / +250 deg C  
Max suction height 2 m  
Standart electric motors of 220/380 V, 50 Hz

**Options :**

- Double or triple pump heads.
- Threaded, flanged or tube connections
- Ex-proof electric motor
- Heated or cooled pump heads
- Hastalloy-C or Alloy 20 pump head for aggressive liquids.
